INDUSTRIAL PRODUCT DESIGNER

www.martijnon.com

*I'm a creative person whose able to work with about anyone, I strive to have good results to and beyond the level that is asked for. If I have a goal I will work hard to get there, however long it may take. I am a person that will give feedback when that is needed. My spatial visualization ability and technical knowledge is very good and I use this to the fullest when I am designing. I see myself as friendly, smart and able to project myself in others, for a good collaboration.*
